Forecast for Wednesday 01 Feb 2023

Weather: Dry overnight with some long clear spells. Then a largely dry and bright day with some sunny spells, although rather more cloud for a time around the middle of the day with some patchy light rain or drizzle possible. A dry evening follows with further clear spells.

Chance of cloud-free hill tops above 600m: Close to 90% at first and again from mid-afternoon, falling to around 40% for a time around the middle of the day

Low cloud and visibility: Occasional cloud above 750m at first and again later, but becoming periods at times above 600m for a time around the middle of the day. Away from cloud visibility good falling to several kilometres in rain and drizzle.
